

# Schools Spectacular

Congratulations to our fantastic students who represented APHS at the Schools Spectacular on Friday at Qudos Arena Sydney Olympic Park. Every year, I am amazed at the talent levels on display and whilst the performances are dominated by students who are part of the Talented Students Performance Program; it is always heart warming to see so many different public schools participating in Schools Spectacular.

Schools Spectacular epitomises the very fundamental public education values of excellence and equity. The performances are always outstanding and every student has the chance to participate and of course our students embraced this opportunity and excelled. Many thanks to Ms Mitsopoulos and Ms Lim for their ongoing commitment to our students by encouraging our student's involvement in this initiative, they have been working hard on preparing for the event since March of this year.
